

DOUBLE-SIDED WINDOW DECALS

PRODUCT DESCRIPTION

Double-sided window decals are a great way to utilize window advertising. They are a great alternative to static cling with the added benefit of being double-sided. These decals can be removed easily leaving no adhesive residue and can be used for first or second-surface applications. In most cases, second-surface meets the requirements of city ordinances and prevents vandalism. The material is opaque, and therefore can also be used for single-sided applications.

SUGGESTED APPLICATIONS

Interior Windows	Exterior Windows
Vehicle Windows	Glass Doors
Advertisements	Events

MATERIALS

» Opaque Material
