

# 2ND SURFACE WINDOW PERF

## PRODUCT DESCRIPTION

This product is a perforated vinyl decal with small uniform holes. It's sometimes referred to as one-way vision. Vision is partially blocked from the exterior, but not from the interior.

Because it's applied to the inside of the window, it helps with most city permitting issues and reduces opportunity for vandalism.

## SUGGESTED APPLICATIONS

Retail Outlets	Sporting Events
Conventions	Restaurants
Showrooms	Office Lobbies
Glass Doors	Windows

## MATERIALS

» Clear Perforated PSV
